

A blue-toned photograph of a data center with server racks in the background. In the foreground, two call center workers wearing headsets are seated at desks with multiple computer monitors. A large, semi-transparent teal arrow graphic points from the left side of the image towards the center.

*Your Secure
Infrastructure Partner*

WHO WE ARE

We are an innovative consulting team, bringing a key set of solutions and services to our key customers in the region. With years of experience in IT operations, data analytics and operational optimization, one thing we have learned is that things can be done easier if the right knowledge, experience and guidance is applied. This is why Real Secure focuses on specific operational functions and supports you in improving and optimizing these functions. If it is healthcare, retail or any other industries, we have the right solutions, the right skills and the required data science to back you up.

ABOUT US

MISSION

To help organizations transform their digital landscape to adapt to the growing threats and opportunities in a secure, scalable and sustainable way.

To be the trusted partner of choice for companies looking for secure solutions and services, by providing value through our 'over and beyond approach'.

VISION

IT SOLUTIONS

We build and deploy solutions understanding our clients' requirements and taking into consideration the ongoing technological disruption which will simplify their tedious day-to-day business tasks. We work closely with our clients to develop customized applications that provide them with a long-term competitive advantage including business differentiation.

Below are some of the custom solutions that we bring to the market:

A patient engagement system which will revolutionize the healthcare industry. The software seeks to make the hospital interaction with the patients as smooth as possible while delivering key return on investment for the hospitals.

An autonomous recruitment platform that can save up to 75% of usual recruitment costs while reducing interview bias.

Zappyhire

**REAL
INSITE**

A SEIM solution for small and medium businesses without loss of any critical functionality of the enterprise systems, such as Splunk. This makes infrastructure monitoring for business hassle-free.

A smart point-of-sale system capable of handling over a million stock keeping units with all the options a retailer could ask for.

POS**

EXTRA LOW VOLTAGE SOLUTIONS

CCTV & SURVEILLANCE

Our team has at its disposal a wide range of products and brands that are compatible with industrial processes, corporate houses, warehouses and home security such as CCTV, alarm monitoring systems, biometric security systems, intrusion detector gate controls, parking management, enterprise ID card issuance systems etc. Our cutting-edge surveillance and security systems come with remote viewing to restrain the chances of theft, burglary and keep an eye on day-to-day activities of your employees. We offer an end-to-end service on CCTV and surveillance equipment, right from choosing the right equipment to suit the size and nature of your business, to installation, configuration and maintenance of the systems.

We at Real Secure are skilled to offer CCTV solutions that suit any kind of business, whether it be small business or enterprise. We are committed to delivering tailored systems to meet the unique needs of our customers, with our products ranging from CCTV to door entry and alarm systems.

ACCESS CONTROL SYSTEMS

Real Secure offers comprehensive access control solutions including software and hardware solutions. Based on our client's needs, we offer design, installation and maintenance services.

TIME & ATTENDANCE SYSTEMS

Keeping an eye on the employee attendance becomes easy with our time attendance systems. Using this our clients can record time sheets, calculate working hours and integrate it with access control systems for easy management. Our access control and time attendance go a long way towards enhancing employee efficiency and productivity.

AV SOLUTION

Our team can effectively address all audio-visual needs including projection and screen equipment, PA systems, paging systems, digital signage, interactive television, info kiosks, meeting room and auditorium systems.

INFORMATION COMMUNICATIONS TECHNOLOGY

STRUCTURED CABLING

At Real Secure we offer integrated structured cabling solutions for solid, constant and uninterrupted communication systems. Our skilled and specialist team guarantee that complicated problems which arise in the networking system are carefully addressed so that our customers enjoy flawless telecommunications infrastructure. We provide scalable cabling infrastructure to satisfy our customers present and future requirements. Every phase from designing, planning, installing and maintaining your network devices is well taken care of by providing a full-structured cabling solution.

IP TELEPHONE & PABX

We offer complete IP telephony solutions for cost-effective communications. With flawless solutions, our clients enjoy scalable VoIP communications through IP networks at lower costs, easy interface of current data structure, effortless communication and greater interaction with branch offices and customers. We deliver top-end services including installation and configuration of the IP telephony systems as well as upgrades and maintenance services to ensure a smooth experience for our clients.

OUR AFFILIATES

Our affiliates bring along a proven track-record of delivering successful projects and exceeding customer expectations.

Together we seek to make our customer engagement a journey which helps them to get wherever they want, and in the process, help us carry on in our quest for innovation.
